

INSTRUCTIONS FOR PREPARING A CAMERA-READY MANUSCRIPT

John Author^a, Ivan Author^b

Faculty of Physics, Moscow State University, 119991 Moscow, Russia

Abstract. This file contains the instructions for the proceedings of the 14th Lomonosov Conference on Elementary Particle Physics. In this place the abstract of the contribution should be placed.

1 Instructions

1.1 General Information

We are asking all authors to send us, together with two hard copies of completely camera-ready paper, an electronic version (an ASCII file using the LaTeX2e typesetting conventions for the text and figures in Postscript form) on CD. The LaTeX file has to include appropriate commands to read in figures Postscript files at the right place of the paper.

Two hard copies and CD with paper should be delivered to the Organizing Committee before April 10, 2010. Please contact (inform) the Organizing Committee by e-mail (ane@srd.sinp.msu.ru) just after you will send us by post the hard copies and CD.

You should have three files in total on the diskette or CD:

- 1) 14lomcon.sty - this is style file with definition of sizes of text, characters, spacing between the lines etc. (please don't change it !);
- 2) cite.sty - this is style file with special service for making multi references;
- 3) yourfamilyname.tex - the main text of your paper (you can delete our sample text with instructions and replace it with your own contribution (paper) to the proceedings, however we recommend to keep an initial version of this file for reference).

To be acceptable all contributions to the proceedings should be prepared by the authors in the following form:

- 1) the text size is 12x18 cm on ordinary A4-size paper (please note that format of a page as well as size of characters and spacing between the lines are set automatically when you use our style files 14lomcon.sty and cite.sty),
- 2) please set in front page the title (to be printed in CAPITAL LETTERS), author(s) name(s) (to be printed like John Brown) with complete mailing address including e-mail address if available or desired, abstract and possible related footnotes,
- 3) all diagrams, figures and related captions should be placed anywhere desired, such as at the end, provided that they are placed before the references;

^ae-mail: john.author@address.com

^be-mail: ivan.author@address.com

Figure 2:

Figure 3:

for some examples of how to insert (and adjust) figures into your text please refer to the corresponding TEX-script of this document,

4) the names of files with figures should contain not more than EIGHT symbols,

5) footnotes should be typed at the bottom of the page where it is quoted,

6) please place acknowledgements at the end of the text before the references,

7) references in the bibliography should be referred to in the text by a number in box brackets ([?], [?, ?], [?, ?, ?]) and the list of references must be located after the text and organized as it is shown in the section References below,

8) pages of your camera-ready contribution must be WITHOUT NUMBERS.

The contributions of authors who made 25 min (20 min and 15 min) talks should not exceed 6 pages (4 and 3 pages), the contributions of authors who made 10 min and poster presentations should not exceed 2 pages.

The three files (14lomcon.sty, cite.sty and 14lomcon.tex) are available on our web site www.icas.ru .

Please note that this LaTeX file with instructions for the authors also demonstrates how your paper should be prepared (please take care on the types of used fonts for the title of the paper, names of the authors, titles of sections and subsections, and also please follow our instructions on making the list of references).

Please do not hesitate to contact us by e-mail for any help you might need in preparing your contribution to the proceedings.
